NEW PRODUCT DATA

Customized equipment to meet
your specific requirements

No. 4555-L
Manual Pellet Press

NOTE: Standard manual pellet presses come with analog gauge. Digital gauges available upon request.

No. 3887
AutoPellet Press

Carver Manual and Automatic Pellet Presses

Designed for Sample Preparation:

All Carver pellet presses are designed to compact homogeneous powder into a usable pellet sample. Pellet dies are constructed of 440 stainless steel for corrosion resistance. All dies include a pellet ejector. A 13 mm die for IR sample preparation is supplied with 12 ton manual press (Model 4350). A 31mm die for x-ray sample preparation is provided with our 40 and 50 ton manual presses (Model 4555 & 4565). Some replaceable parts available on die sets. Consult factory for details. These presses are also available less the die. This allows the customer to choose the die they would like.

Features:

Manual Presses

- Evacuation port for connection to vacuum source
- Oversize pressure gauge for ease of viewing
- Integral safety shields

AutoPellet Presses

- Evacuation port for connection to vacuum source
- Rigid slab side construction
- Counter bored platen for positive die alignment
- Programmable control system
- Storage for up to ten recipes
- Programmable decompression rates

Ordering Information:

Manual Presses

Manual Presses are ordered by their catalog number. They are supplied with die indicated in specifications table. Consult factory for other options.

Available Pellet Dies

Catalog Number	Sample Dimensions	Maximum Applied Load
4417	6mm	3,500 Lbs Max
4946	12mm	13,000 Lbs Max
3619	13mm	18,000 Lbs Max
4369	25mm	47,000 Lbs Max
3902	31mm	60,000 Lbs Max
3876	40mm	70,000 Lbs Max

Constructed of 440 Stainless Steel, except ejector
